

Iman Kahssay, Catherine Bumagat, Charley Huang, Priyanka Goswami, Brenda Damian

TARGET USERS

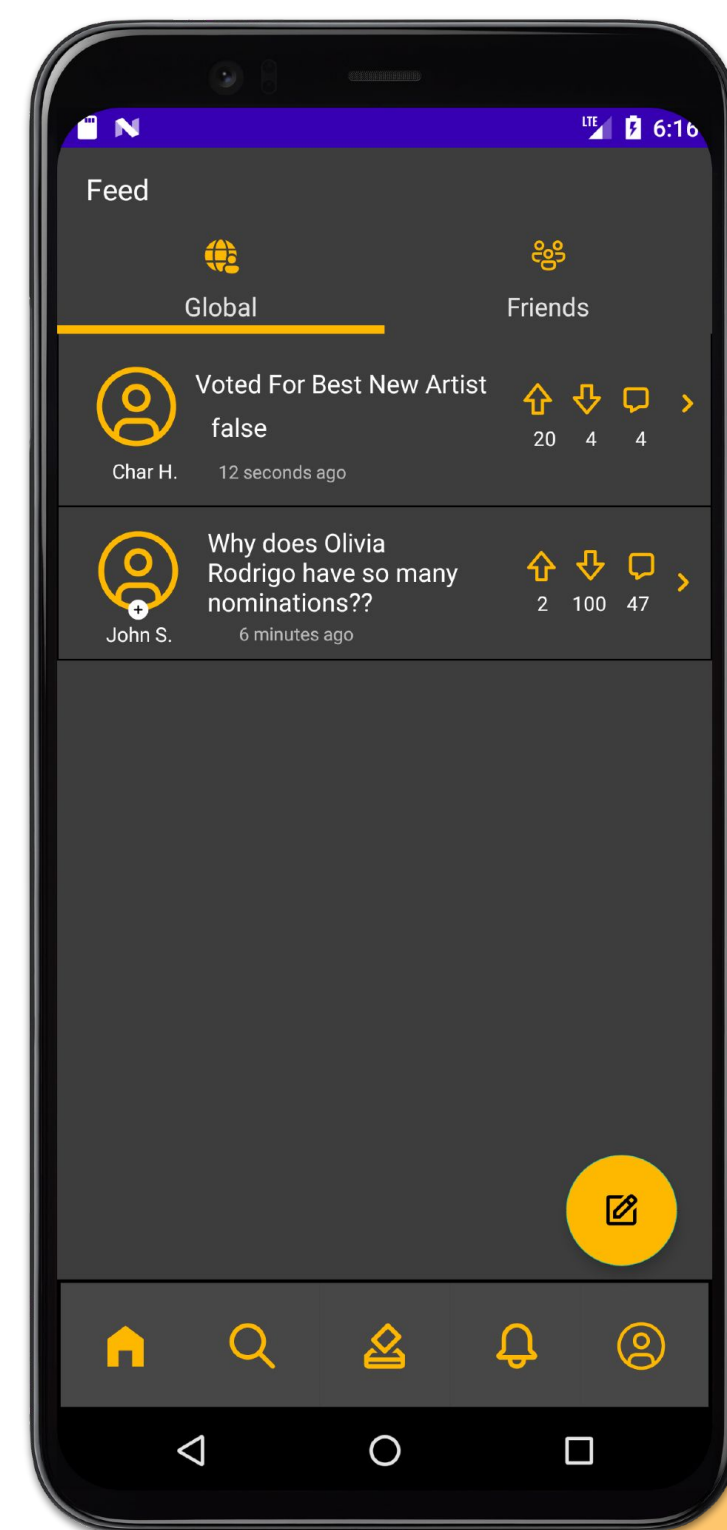

Music Aficionados

GRAMMY Enthusiasts

Social Media Users

Our goal is to **make predicting the winners of the GRAMMYS a social and community-driven activity!**

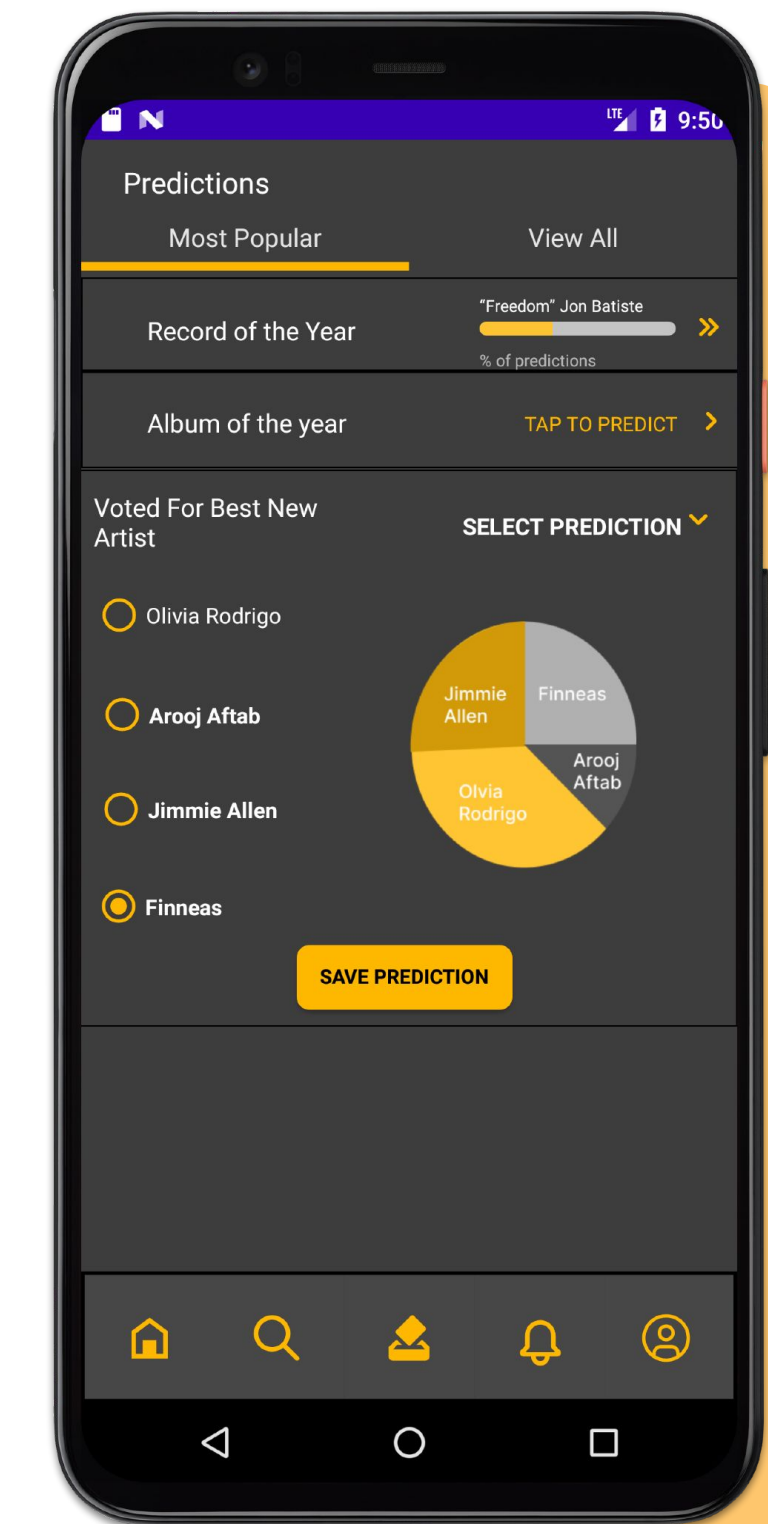

A global and friends feed page where users can **upvote and downvote** posts and predictions.

Users can **make discussion posts** related to the GRAMMYS

Users can keep track of their predictions of who they think will win the GRAMMYS

[illegible]

The diagram illustrates the user flow for the GrammyGuesser app. It features five main screens: Login Screen, Onboard screen, Home screen, Profile screen, and a detailed view of the Home screen. Blue arrows indicate the sequence of user actions: from Login to Onboard, then to Home, and from Home to Profile and back to Home. The Home screen displays a list of Grammy-nominated albums and artists.
